				Stabilizer Adapter Mount SAM-6 250mm/10", K2.0024508	Adjustable Top Plate K2.0024181
	The SAM-6 450mm/18in fits the ARRI TRINITY 1/2, MAXIMA and Artemis 2 stabilizers, however the 450mm plate is designed to support longer camera builds on SRH-3/360 and may compromise movements on body held stabilizers.	SAM-7 and SAM-8 have the same dovetail size. The SAM-8 is longer and features bottom safety stops optimized for Tiffen Steadicam units		The long SAM-6 (450mm) supports long zooms, e.g. Signature Zoom 65-300mm, on the ARRI SRH heads.
